# Embedded Terminal for
MFP HP

The **« eTerminal-HP »** embedded terminal works with the HP Multifunction Printers and enables the communication between the MFP and the **GESPAGE** server.
Accessible from the touch screen of the HP MFP, this software allows for access control, secured printing and user's identification by entering a code on the touch screen.
This « Embedded » terminal fully fits into the touch screen of the HP Multifunction printers.
This **eTerminal-HP** software is compatible with all FutureSmart MFPs. This improvement makes the **Gespage** solution more competitive. In addition, this solution is perfectly suitable to the ergonomics of the HP equipment.

Scheme of the network configuration

- ✓ Personalized welcome to the identified user.
- ✓ User-friendly selection of the documents to print.
- ✓ Sending to **Gespage** server of prints, copies and scans performed.
- ✓ Secure use of the HP MFP by Login, Login / Password, Code, Card (badge reader in option).
- ✓ Management and accounting of the user's scans to email and to a limited address book.
- ✓ Synchronization and management of the users, LDAP, AD directories or a CSV data base.
- ✓ Setting of access rights for the specific use to each user or user group.
- ✓ Management and configuration of the terminal from a user-friendly web interface.
- ✓ The « From: » field of the emails is automatically filled in with the user name.
- ✓ Modification of the job properties (force print in B&W or duplex, or modify the number of copies).

- ✓ The intuitive user interface allows a quick start from the first use.
- ✓ Display of the user credit before and after the operation, as well as the tariffs of copies, prints (A4, A3, B&W, Colour) and scans.
- ✓ The user may select one or several documents from the list in the print queue for release them, delete them or leave them in the queue.
- ✓ Copies, prints and scans are managed directly on a same interface.
- ✓ A quick identification thanks to the contactless badge reader (in option).

Specifications

- ✓ With the TCM3/TCM4 option, compatibility with most RFID cards.
- ✓ Compatible with the Gespage 8.0.0 versions and higher.
- ✓ Available on the HP Enterprise equipment.
- ✓ Requires the minimum v4 version of the HP FutureSmart firmware.
