

Embedded terminal for MFP LEXMARK

The « **eTerminal-Lexmark** » embedded terminal works with the LEXMARK Multifunctions and enables the communication between the MFP and the **GESPAGE** server.

Accessible from the touch screen of the LEXMARK MFP, this software allows for access control, secured printing and user's identification by entering a code on the touch screen.

This « Embedded » terminal fully fits into the touch screen of the LEXMARK Multifunctions.

This improvement makes the **Gespage** solution more competitive. In addition, this solution is perfectly suitable to the ergonomics of the LEXMARK equipment.

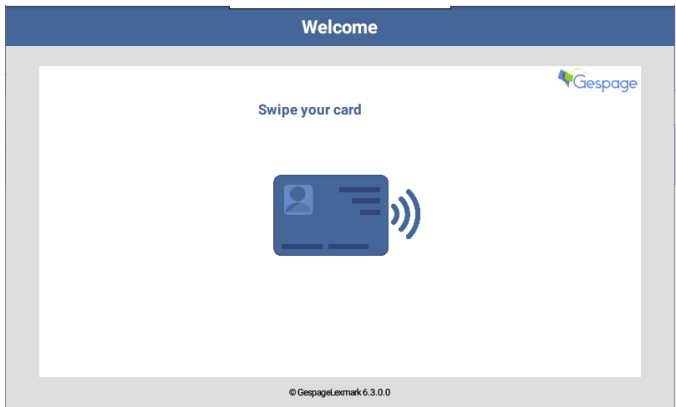

Scheme of a network configuration

Embedded terminal benefits

• Security / Access management

- ✓ Secure use of the LEXMARK MFP by Login, Login/ Password, Code, Card (badge reader in option).
- ✓ Setting of access rights for the specific use to each user or user group.
- ✓ Personalized welcome to the identified user.
- ✓ Display of the user credit before and after the operation, as well as the tariffs of prints (A4, A3, B&W, Colour).

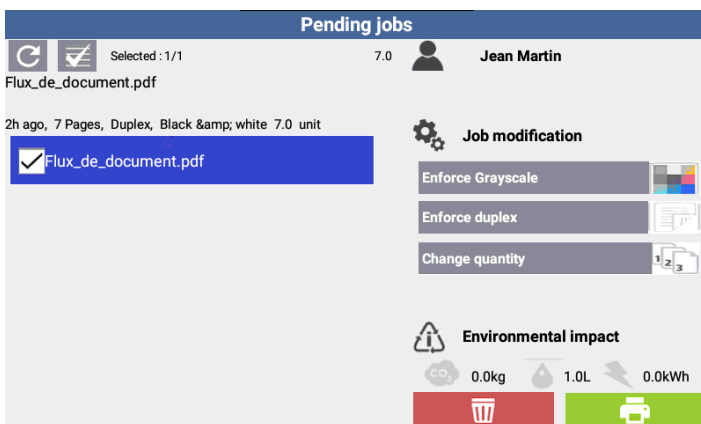

• Print management

- ✓ The user can select one or more documents from the list of pending prints, release them, delete them or leave them pending.
- ✓ Implementation of a printing policy with modification of the job properties (forcing black, forcing duplex and modifying the number of copies).
- ✓ Printing in operator mode.

• Accounting and reports

- ✓ Possibility of selecting a cost center from a list to allow detailed allocation of printing costs.
- ✓ Accounting for page-by-page impressions thanks to eTerminal functionalities.
- ✓ Wide range of reports available.

• Scans

- ✓ Scan to user email or personal directory.

Specifications

- ✓ Compatible with TCM3 and TCM4 badge readers.
- ✓ Compatible with Gespage 8.2.1 and higher versions.
- ✓ Le SF platform required, version 3.1 minimum.
