

Embedded terminal for MFP SHARP

The « **eTerminal-Sharp** » embedded terminal works with the SHARP Multifunction's and enables the communication between the MFP and the **GESPAGE** server. Terminal configuration and management are done from a friendly Web interface.

This embedded software enables secured printing thanks to user's identification by entering a code on the touchscreen or by using a card.

Thanks to quick access buttons to printing functions, scans and copies, **the eTerminal-Sharp** makes the use of the MFP easier, more ergonomic and overall, more productive.

A simple click enables the user to interact with documents that he wishes to copy, print or scan and this in compliance with confidentiality and GDPR regulations.

Scheme of a network configuration

The embedded terminal benefits

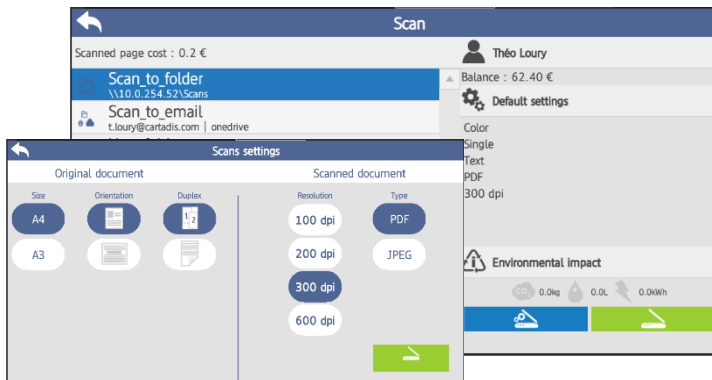

• Safety / Access management

- ✓ Safe use of SHARP MFP through username/password login, code, card (badge reader in option).
- ✓ Possibility to customize a logo on the login page.
- ✓ Possibility to set up access rights for each user or group of users.
- ✓ Possibility of degraded mode under the offline mode.

• Printing management

- ✓ The user can select one or more documents from the pending Print List, release them, delete them or keep them pending.
- ✓ Setup of a printing policy with change of job properties (change the number of copies).
- ✓ Printing in operator mode.

Specifications

- ✓ Compatible with card readers TCM3/TCM4
- ✓ Compatible with Gespage versions 8.2.1 and higher versions.
- ✓ OSA (Open System Architecture) platform required, version 3.5 minimum with MXAMX3 Browser n2.0 option and MXAMX2 option required for advanced scanning.

• Intuitive interface

- ✓ Personalized welcome to the user.
- ✓ Three quick access buttons to the following functions: print, advanced scan and setup menu.
- ✓ Display of the user credit before and after the operation as well as printing tariffs (A4, A3, BW, Color) and scan.

• Advanced scan

- ✓ Advanced scan management with quick scan selection to the user email, to a personal directory or to shared directories between groups of users. Also compatible with Google Drive and One Drive.

• Accounting and reporting

- ✓ Possibility of selecting a cost centre from a list to allow detailed allocation of printing costs.
- ✓ Accounting to the exact page thanks to the eTerminal functionalities.
- ✓ Wide range of available report.
