# Module of printing
Gespage Mobile

Gespage Mobile module is a service for sending documents to print from any connected equipment, PC, Smartphone, Tablet.

Key points

- Printing from any connected terminal (Pc, smartphone, tablet ...).

- 3 ways of printing: From a web page – By email sending - Via Android and iOS applications (iPhone & iPad) for Smartphone and Tablet.

- No print driver installation and secured access to the service.

- A secured multilingual platform (https / SSL format) enables the user to authenticate and create his account.

- Printing of files (Pdf, Office, Open Office, Image...) and web pages.

Functioning of the solution

Gespage Mobile Web interface may be customized with the colours, logos and messages of your structure.

The service is compatible with all printers featuring the PostScript language.

From his Smartphone or Tablet, via Gespage application, the user can:

- o Check his account and historical statements (credits and transactions).
- o Select his printer by QR Code.
- o Print his images, documents, photos...
- o Define his print settings (paper size, number of copies, duplex...).

The user can also send a document for printing as an attachment of an email to a dedicated address of the server.

The Web interface can also host a service for account reloading by credit card: Gespage Web Payment.
